Since his first conference with Mr. Underwood, President Wilson had gone over the tariff bill in immediate detail with Secretary Redfield, of the De-

partment of Commerce, for whose tariff views he has a high regard. it was not thought that any detailed rates would be under consideration at te-night's conference; but that the general questions as to the free ad-mission of raw materials and the ex-

But That is Merely Ornamental Flourish to Tariff Bill.

By JAMES J. MONTAGUE.

Washington, April 1—After a prolonged conference, President Wilson and Chairman Underwood, of the flouse Ways and Means Committee, to-night agreed on the tariff bil lwhich will be subcitted to the flouse caucus Saturday. The bill carries a 15 cent duty on wool and puts sugar on the free list. The laiter provision is an ornamental flourish. Both the President with a duty on wool, zinc and lead; Palmer, of Pennsylvania, with a duty on coal; Garner, of Texas, cattle, mohair and onions; Kitchin, of North Carolina, a rearrangement of the lumber schedule.

Naturally, the discussion of the tariff bill included a discussion of the income tax, which will be needed to make up the revenue that will be lost through such a cut in dutics as the House intends to make. It was suggested, but not finally agreed upon, that the question of rate making for incomes should tion of rate making for incomes should be left to the President. The income tax bill has been tentatively written to include this idea. Thus, if the income tax agreed upon by Congress and
the duties under the new bill do not

Prospective opposition was gone into pretty thoroughly. The President is fully alive to the fact that the free sugar plank which the House leaders insist upon will jeopardize the charces of the bill in the Senate. He is also sofficiently astute to know that the House can permit the Senate to take out the free sugar clause and without out the free sugar clause, and without any loss of dignity. As a matter of

Women of Experience Advise the Use of Mother's Friend.

There is a certain degree of trepidation in the minds of most women in regard to the subject of motherhood. The longing to possess is often contradicted by the linher ent fear of a period of distress.

But there need be no such dread in view of the fact that we' have a most noble remedy in what is known as Mother's Friend. This is an external application that has a wonderful influence and coatrol over the muscular tissues of the abdomen. By its daily use the muscles, cords, tendons and ligaments all gently expand without the slightest strain; there is no pain, no rausea, no nervousness; what was dreaded as a severe physical ordeal becomes a calm, screne, joyful anticipation that has its impress such as our foremost teachers of Eugenics are striving to drill into the minds of the present generation.

In almost every community there are women who have used Mother's Friend, and they are the ones that recovered quickly, conserved their health and strength to this preside over families destined by every rule of physiology and the history of successful men and women to repeat the story of greater achievement.

Mother's Friend is prepared after the formula of a noted family doctor by the Bradfield Regulator (b., 188 Lamar Bidg. Atlants, Ga.
